The Leon County Re-opening Plan provides a framework and guidance for the community to both navigate and plan for the phases of re-opening in a manner that minimizes the risk of resurgence and protects the most vulnerable from COVID-19. As part of this phased approach, the Re-opening Plan also details the planned restoration of County services, operations, and facilities for public use which will be achieved as the County organization continues to implement the proper procedures and protocols in its role as an employer. The Leon County Re-opening Plan seeks to provide greater specificity about how the state's plan applies to Leon County individuals and employers, as well as a roadmap of what we might expect over the longer-term as we deal with the health threats and economic disruption of a global pandemic, locally.

The County's Re-opening Plan follows Federal guidance included in the Opening Up America Again guidelines published by the White House Coronavirus Task Force and the Centers for Disease Control and Prevention (CDC), and the Re-Open Florida Task Force Plan for Florida's Recovery. Federal guidelines explicitly call for a phased approach to re-opening using the health-related gating criteria developed by the CDC to be implemented **on a statewide or county-by-county basis at the Governor's discretion**. By Executive Order, Governor DeSantis used his discretion to develop a statewide re-opening plan utilizing

the CDC gating criteria and directed that the "initial Phase 1" of Florida's re-opening begin on May 4, 2020. On May 15, 2020, the Governor initiated the next steps under "full Phase 1".

The County's Re-opening Plan reflects the Governor's Executive Order (#20-123) for full Phase 1 and will be updated to reflect the Governor's future phases. However, given all the uncertainty around COVID 19, this plan includes projections and working assumptions for subsequent phases. These projections and assumptions related to future phases are intended only to help individuals and employers in our community know what we might expect in future phases. Similarly, the protocols and practices within each phase of the plan will be adjusted based upon changing conditions, future Executive Orders by the Governor, and direction from the Leon County Board of County Commissioners.

At the onset of the pandemic and activation of the Leon County Emergency Operations Center, the County's initial objectives focused on slowing the spread of the infection, 'flattening the curve' to ensure our local hospital capacity would not be overwhelmed, and protecting the needs of our most vulnerable populations. This included an aggressive public information campaign, addressing rising food insecurity, activating hospital surge plans, PPE distribution, and standing up test sites. As we transition from strict

physical distancing to a gradual phased re-opening and look ahead, the ongoing emphasis is to minimize the risk of a COVID-19 resurgence in our community. This necessitates a "new normal" for nearly every aspect of our lives including our workplaces, educational institutions, places of worship, and leisure activities.

Over the past two months, our community has continuously demonstrated its vigilance in better understanding the risks associated with the novel virus, adherence for the guidance issued by local health officials, and compliance with the Safer-At-Home orders. COVID-19 and the implementation of the County's phased re-opening plan will undoubtedly alter our daily routines, public interactions, and the appearance of workplaces and employees.

As we transition into re-opening phases across the nation, state and here locally, it is important to note that at the time of this writing there is no vaccine for the virus, and no therapeutic that reduces morbidity. A phased re-opening, guided by health data, will not only help us recover economically, but may provide the time necessary to control spikes, develop a vaccine and scale its production as we continue to protect lives and begin to reset livelihoods.

For future updates to this plan, see www.LeonCountyFL.gov/COVID19-Reopen.

Data-driven decision making based on public health benchmarks and trajectories

Slow the spread and mitigate the risk of resurgence of COVID-19 through ongoing planning, coordination, and public health intervention

Protect and preserve the health and safety of vulnerable populations (elderly, homeless, underlying medical conditions, food insecure, etc.)

Locally facilitate and support the State's plan to increase community testing and contact tracing

Support hospitals through healthcare surge planning and resource allocation

Conduct holistic, aggressive public information to educate citizens on public health measures like face mask use, physical distancing, and other resources

Provide State-resourced personal protective equipment to frontline healthcare workers and long-term care facilities

Address rising food insecurity by supporting operations of local and regional food banks and pantries

Re-open in a safe, smart, and measured way in alignment with the State's plan and Governor's Executive Orders

Support communitywide long-term recovery with local, state, and federal resources

Leon County's Phased Approach

Phase 1

Phase 2

Phase 3

Leon County's *COVID-19 Response & Re-opening Plan* is **consistent with federal and state phasing guidelines**.

Advancement between phases is based on **downward trajectory** of public health indicators such as new **COVID-19 cases** and **COVID-like symptoms**.

Gating Criteria

Phased Re-opening Guided by Health Data

State Gating Criteria

The state's gating criteria guide the *Leon County COVID-19 Response & Re-opening Plan*. The state establishes, maintains and determines when the health benchmarks of the Safe. Smart. Step-by-Step Plan are met. These health benchmarks include:

- Maintaining hospital capacity
- Monitoring COVID-19 test positivity rate
- Number of emergency department visits with influenza-like illness
- Number of emergency department visits with COVID-like illness
- Number of documented new COVID-19 cases
- Percentage positive of tested and rate over time

The Guidelines for Opening up America Again and the Safe. Smart. Step-by-Step. Plan for Florida's Recovery provide the gating criteria to be satisfied before proceeding to the phased openings. Leon County's local phasing will reflect determinations made at the State level. The gating criteria are conditioned upon downward trajectories in symptoms and cases along with hospital capacity and testing requirements.

Face Covering Requirements

Community Face Covering Requirements

To mitigate the spread of COVID-19 and protect the public health of our community, Leon County approved an emergency ordinance requiring face coverings beginning Thursday, June 25 at 12:01 a.m. As confirmed cases of COVID-19 continue to rise locally and statewide, **the ordinance states that an individual in a business establishment in Leon County must wear a face covering while in that business establishment.**

A **business establishment** means a location with a **roof overhead under which any business is conducted, goods are made or stored or processed or where services are rendered.** The term “business establishment” also includes locations where non-profit, governmental, churches and quasi-governmental entities facilitate public interactions and conduct business, along with passenger vehicles for hire (Uber, Lyft, taxis, etc.), limousines and rental cars. Also, as part of the requirement, **all businesses must post a notice visible to all customers that face coverings are required while indoors.**

For a list of answers to **Frequently Asked Questions** and an example face covering requirement sign for businesses, visit: LeonCountyFL.gov/ei

Facial coverings are not required to be worn by the following persons:

- Persons under the age of six years;
- Persons who have trouble breathing due to a chronic pre-existing condition or individuals with a documented or **demonstrable medical problem.** It is the intent of this provision that those individuals who cannot tolerate a facial covering for a medical, sensory, or any other condition which makes it difficult for them to utilize a facial covering and function in public are not required to wear one;
- **Persons in their private rooms of a lodging establishment,** such as a hotel, motel, or vacation rental—however, face coverings must be worn in all indoor commons areas of said establishment;
- **Persons exercising** while observing at least **six feet of distancing** from another person;
- Restaurant and bar patrons **eating or drinking;**
- Business owners, managers, and employees who are in an area of a business establishment that is not open to customers, patrons, or the public, provided that six feet of distance exists between persons. However, workers preparing food must still wear face coverings.

Guidelines for All Phases
